Irrigation Event	Date(s)	Land Application Area(s)	Volume (gallons or acre-inches) [Prior to July 1, 2011- volume measurements may be total volume for all land application areas]	Source (well/canal name)	Analysis Results <sup>1</sup> [One irrigation event during each irrigation season during actual irrigation events for each irrigation water source (well and canal)]	
					Electrical Conductivity (EC)	Total Nitrogen

*Information in this document was compiled by CDQAP to assist dairy producers in understanding and complying with the General Order Waste Discharge Requirements for Existing Milk Cow Dairies (Central Valley Regional Water Quality Control Board Order R5-2007-0035). Effort has been made to ensure accuracy, but these summaries are not official regulatory guidance and are not legal advice. Producers are advised that these summaries are not intended to be a substitute for producers reading the complete order and consulting their own legal counsel to ensure compliance with the waste discharge requirements. Should any information here conflict with the General Order and/or official information provided by the Regional Board, Board-provided information takes precedence.*

<sup>1</sup> Data supplied by irrigation districts or acquired through source water sampling is acceptable.
